## Vaccines : Conquering untreatable diseases

*Vaccines have been one of the biggest success stories of modern medicine. WHO estimates that at least 10 million deaths were prevented between 2010 and 2015 thanks to vaccinations delivered around the world.*

## Anaesthesia : Symbol of humanitarianism

*In the 19th century anaesthesia was heralded as a civilising factor of the Western world. In the 21st century, anaesthetics continue to evolve and are the most vivid exemplar of medicine's capacity to lessen suffering.*

*Dr. Raymond Damadian*

Invented M.R.I. in 1977.

*Wilhelm Rontgen*

Invented X-Ray imaging in 1895.

## Imaging : Revealing the world within

*A chance discovery in a physics laboratory opened the body to sight from bones to molecules and where the eye has penetrated, the hand is now reaching. The discovery of x rays led to an array of visualisation and interventional techniques that permeate modern practice and continue to astonish*

## Antibiotics : The epitome of a wonder drug

The discovery of antibiotics not only heralded a dramatically new approach to infection control and health care but also enabled nations to prosper and overturned the concept of health as a moral duty

*Sir Alexander Fleming*

Discovered the enzyme lysozyme and the world's first broadly effective antibiotic substance which he named **Penicillin**.

## Discovery of DNA structure The best is yet to come

Watson and Crick's discovery of the structure of DNA has opened up a world of possibilities in new treatments. The most dramatic evidence of that flood of research is the human genome project, humanity's biggest research endeavour.

## Organ transplant : Transcending our limits

Organ transplantation is certainly one of the "miracles" of modern medicine. The impossible dream of replacing a dead or dying vital organ, such as a kidney or a heart, with a living one became a reality on December 23, 1954, when Dr. Joseph Murray and John Merrill of Peter Bent Brigham Hospital transplanted a kidney from one monozygotic twin to another.

*Dr. Joseph Murray*
